

# TOP 10 VEGGIES TO GROW FROM SCRAPS

## Lettuce

Place the cut-off end in water

## onions

Slice off the root, with one inch of onion attached, and plant in soil

## Potatoes

Dry out peelings with 'eyes' on them before planting in soil

## pumpkin

Rinse and dry out seeds before planting in soil

## Ginger

Plant a chunk in soil until it sprouts, then re-pot

## Garlic

Place a bulb in water and watch it sprout - use the green tips as garlic!

## Celery

Place the cut-off end in water

## mushrooms

Plant the stalks in soil and keep damp

## tomatoes

Rinse and dry out seeds before planting in soil

## Basil

Leave a stem in water until you see roots and then plant in soil
